PRESIDENT
CIVIL AVIATION OFFICE

Grzegorz Kruszyński

Warsaw, 30 March 2009

ULC-LEP-5/0834-0001/01/09

Mr. André Auer
Chief Executive
Joint Aviation Authorities

Subject: Your letter LO-016-AA of 9 March 2009

Dear Mr. Auer,

Thank you for your interest in the issue raised by the KTL AOPA Poland in their letter of 17 February. I pay much attention to the voices of the general aviation community and thus we processed the request of KTL AOPA Poland thoroughly and without unnecessary delay.

In my reply of 20 March (enclosed) I welcomed their suggestions concerning the use of the Form 154 and announced that efforts have been undertaken to amend current legislation on personnel licensing in order to better meet the expectations of the GA community.

As far as organization of traffic at the Warszawa-Babice (EPBC) aerodrome is concerned, it results from the local conditions (densely populated urban areas and neighbouring CTR Warszawa-Okęcie) which are not favourable to conduct flight training.

I hope you will find this information satisfactory.

Yours sincerely,

cc: Mr. Tadeusz Jarmuziewicz, Secretary of State, Ministry of Infrastructure
Mr. Błażej Krupa, Chairman, KTL AOPA Poland
