**Mr. Jan Mottl
Aviation Nondestructive Testing
Board's President
(PL NANDTB/CPL)**

Concerns: recognition of the National Aviation Nondestructive Testing Board

In addition to previous materials, which were delivered by the Aviation Standards Vice President, I confirm that the Civil Aviation Office recognizes the National Aviation Nondestructive Testing Board as satisfying requirements Board's Regulations (WE) no. 2042/2003 from 20 November 2003 and standard requirements PN-EN 4179.

I am convinced, that as it was till now, the board's activities will still positively affect on the functioning of the aviation nondestructive testing specialists qualification and certification process. I wish all board members successes in their activity and satisfaction from the implemented tasks.
